

10-26 KW **AUTOMATIC STANDBY** **GENERATORS**

Home, Family, and Assets, Remain Protected During a Power Outage.

Honeywell

AUTOMATIC STANDBY GENERATORS

A Honeywell automatic standby generator seamlessly backs up the circuits you choose during a power outage. It automatically starts within seconds of detecting power loss, and runs on the home's existing natural gas or LP fuel supply. Choose a backup option from essential circuit, managed whole-house or complete whole-house coverage. It's the reliable answer that ensures necessities, conveniences and amenities are always available and automatically backed up when the power goes out.

FEATURES

WI-FI CONNECTIVITY: Honeywell standby generators are Wi-Fi enabled. Now you can remotely connect and monitor its status on a smartphone, tablet or PC, from anywhere in the world using Mobile Link's FREE service.

PREMIUM 5-YEAR LIMITED WARRANTY: Honeywell Generators carry a best-in-class Premium 5 Year Limited Warranty for automatic standby generators. Includes parts and labor.

PRECISIONPOWER™ TECHNOLOGY delivers best-in-class power quality with less than 5 percent total harmonic distortion for clean, smooth operation of sensitive electronics and appliances.

ENGINEERED AND ASSEMBLED IN THE USA.*

*Assembled in the USA using domestic and foreign parts

GENERAC G-FORCE ENGINE is a purpose-built, pressure-lubricated engine capable of handling the rigors of generator use, resulting in power that's more reliable and requiring less routine maintenance than any competitive engine.

24/7/365 CUSTOMER SUPPORT TEAM standing by all day everyday from our headquarters in Wisconsin to answer any questions .

WHISPERCHECK™ self-test mode runs at a lower RPM for a five minute test, is significantly quieter than other brands, and consumes less fuel.

STURDY, ALL-WEATHER ALUMINUM ENCLOSURE: The durable aluminum enclosure with RhinoCoat™ finish prolongs the life of your generator with corrosion-resistant protection from the elements, making it ideal for coastal, salt-air climates. Modeled to withstand winds up to 150 mph, and with a fire rating certified for optimal placement, 18" away from a building. Composite mounting pad is included, eliminating the need to pour a concrete base unless specified by local codes.

TRANSFER SWITCH OPTIONS

Honeywell Sync™ Smart Transfer Switch:

Utilizing digital power management, it allows for coverage of two air conditioners without additional components and up to whole house coverage.

Pre-wired 16 Circuit Transfer Switch:

Cost-effective, easy to install option for essential coverage. For use with the 10 kW or 14 kW only.
