

CO48PM

For Indoor/Outdoor Use

The CO48PM is an ideal choice to keep indoor rooms and outdoor environments comfortably cool and breezy. This weather resistant evaporative air cooler is made to resist outdoor conditions. Honeywell evaporative coolers do not require power hungry components like compressors. The CO48PM consumes only 150 watts* of power. This low power consumption translates into significant savings on energy bills compared to using air conditioners. This unit is ideal for rooms up to 610 sq. ft.* in any home or office.

For Outdoor Environments

Its powerful motor with 14 inch, wide fan blades help to deliver strong air flow. A continuous water supply connection, 10.6 Gallons** water tank, and built-in overflow protection system allow longer periods of operation, making it suitable for more demanding applications. This unit features honeycomb cooling media on 3 sides for faster, more optimal cooling performance.

* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.
 ** Water Capacity is the total volume of water that can be contained within the air cooler water tank and water distribution system.

Product Dimensions (in)	24.4 (W) 14.8 (D) 34.8 (H)
Net Weight	30.9 lbs / 14 kg
UPC Barcode	848987000848
EAN Barcode	4895007930933
Container Qty 40' HQ	242 pcs

FEATURES & BENEFITS

Weather-Resistant For Outdoor Use

Low Power Consumption 150 Watts*

Water Capacity 10.6 Gallons (40 Liters)**

3 Speeds: High / Medium / Low

Continuous Water Supply Connection

Cools Up To 610 Sq.ft (57 Sq. m)*

Powerful Air Flow 1062 CFM (1800 m³/hr)*

Wide Fan Blades Faster & Wider Air Flow

Easy To Operate And Reliable Mechanical Control Panel

3 Side Honeycomb Cooling Media For Optimum Cooling
