

CO60PM

For Indoor/Outdoor Use

The CO60PM is an ideal choice to keep indoor rooms and outdoor environments comfortably cool and breezy. This weather resistant evaporative air cooler is made to resist outdoor conditions. Honeywell evaporative coolers do not require power hungry components like compressors. The CO60PM consumes only 220 watts* of power. This low power consumption translates into significant savings on energy bills compared to using air conditioners.

For Outdoor Environments

Its powerful motor and wide fan blades help to deliver strong air flow. A continuous water supply connection, 15.9 Gallon water tank, and built-in overflow protection system allow longer periods of operation, making it suitable for more demanding applications.

* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.
 ** Water Capacity is the total volume of water that can be contained within the air cooler water tank and water distribution system.

Product Dimensions (in)	27.6 (W) 18.3 (D) 40.0 (H)
Net Weight	41 lbs / 18.8 kg
UPC Barcode	848987000541
EAN Barcode	4895007930162
Container Qty 40' HQ	171 pcs

FEATURES & BENEFITS

Weather-Resistant For Outdoor Use

Low Power Consumption
220 Watts*

Water Capacity
15.9 Gallons (60 Liters)**

3 Speeds:
High / Medium / Low

Continuous Water Supply Connection

Cools Up To
850 Sq.ft (80 Sq. m)*

Powerful Air Flow
1540 CFM (2610 m³/hr)*

Wide Fan Blades
Faster & Wider Air Flow

Easy To Operate And
Reliable Mechanical Control Panel

3 Side Honeycomb Cooling Media For Optimum Cooling
