By-Pass Flow Through Humidifier
HE280
By-Pass Flow Through Humidifier HE280

INCREASING COMFORT WHILE PROTECTING THE HOME

KEY FEATURES:

- Replenishes moisture throughout the home to make it more comfortable
- Water-saving technology – uses 30% less water than standard models
- For homes up to 2,000 to 4,000 sq ft.
  - Typical homes (more than 20 years old): Up to 2,000 sq ft.
  - Newer homes (less than 20 years old): Up to 4,000 sq ft.
- Installation Kit included
  - Easier installation with fewer duct connections, less wiring and an online installation video
  - Flow-sensing pressure switch and shut-off damper built into product, easing the installation process for homeowners
- Packaging and product design enhance the look on shelf and simplify purchase decision for consumer
- Utilizes home’s HVAC system for whole-home humidity distribution
- Easy mounting on either warm air supply or return air duct of forced-air furnaces
- Less maintenance and cleaning than portable units
- Protects wood floors and furnishings from drying and cracking
- Reduces static electricity
- Saves money and energy – because the improved humidity makes for a more comfortable home, the thermostat can be turned down a few degrees
- Easy-to-use Honeywell humidity control included
- PerfectFLO® water distribution tray optimizes efficiency and water usage

* Age of home is a general guideline in determining humidification range but should not be used as sole determining factor for sizing
